Go angling for evidence of its fishing port heritage. Paddle off on a canoe trail, or dive into delicious delis and stroll down The Avenue for a picnic on the Common. With a food and drink festival to feast on, quayside antiques markets, regular music and more at the Public Hall and the Broads National Park on hand too, no wonder Beccles is one of England's fastest-growing market towns!

Stay this Way ...

Whatever floats your boat, tethers your tent or ranks highest on your holiday hit-list, Beccles has a special something to share. Pull up at an historic coaching inn or pick out a townhouse loft apartment. Pitch up or park the caravan or motorhome down on the farm. Or maybe ring the changes with a fully-furnished bell tent just a river-meander away from Beccles Tower? There are 'static' quayside houseboats, floating glamp-pods with pontoon-decking and a whole fleet of Broads boating opportunities too. What will you choose?

A Light-hearted Guide to Beccles Big-wigs

Eadwig & The Benedictines: Anglo-Saxon (950s) teen-king Ed traded Beccles Manor for St Edmund's blessing. But reigning just 4 years, his bargain backfired. Or did it? In 1066 the storming Normans found Beccles already in French hands (those of Bury St Edmund's Abbot Baldwin!) so left the town alone. It prospered under Abbey rule until Henry VIII dissolved the monasteries.

William Rede & Son: Bill the Elder bought Beccles Fen back for the townsfolk with the 1539 town purse. Son, Billy, bought Beccles Manor. Accused of dodgy-dealing, the ensuing decades of disputes were resolved only by Elizabeth I granting a charter (1584) to John Baas, first portreeve/bailiff of Beccles (immortalised on town sign).

STEP OUT & ENJOY IEWS & PEWS HERITAGE WALK A Stroll around the Historic Highpoints

FROM/TO: Beccles Bell Tower, The Walk NR34 9AJ

St Michael's look-out/loud-speaker/beacon bell tower 1 was built (1500-40) to make Beccles seen and heard for miles. Henry VIII's Reformation put paid to its planned steeple, but views from its 30m/97ft tower are some of Suffolk's best by far. Look out for Lowestoft's wind turbine, Gulliver, on a clear day! St Michael's Church (2 (c. 1369 +) lost its roof to the Great Fire of Beccles (1586) and has pillars reputedly 'pinkened ' by the flames. Upstairs in the porch (1450), there was once a gunpowder store (presumably not in 1586, thank heavens!) and a library. Can you spot its unusual 'squinch' window? Head for the cliff-top platform outside St Michael's west-end for fine river/site of Saxon fishing port/wide Waveney Valley views. Take Church Steps down to Puddingmoor. Turn right to reach St Peter's House 3, incorporating remains of roundtowered Church of St Peter the Fisherman (900s-1530s), at junction with Old Market 4, probably site of Saxon fish/trade markets/1800s livestock markets. The Bear & Bells inn remembers fairs/entertainment seen here in later centuries rather than the 1800s livestock markets. Detour left down The Score (convenient, time-honoured direct access to the river). Retrace steps, turn left down Northgate. Low windows of former shops give way to redbrick Georgian façades (Montagu House/Oswald House with Flemish gables), warehouses, tannery buildings, maltings with further scores to river. THEATRE? Is it 'Lee-doh' or 'Lye-doh'? Who cares! First-class and fun, Beccles heated outdoor swimming pool has to be East Anglia's finest! If you're up for a family day out, powering up and down the lanes, bouncing about on agua inflatables or just lazing poolside, this is the Beccles place to be.

With competitions and water carnivals taking place in/on the river for decades, it's a real tradition too. In 1894, versatile architect Francis Banham (designer of St Benet's Church) planned 'The Bathing Place', a serviced area dug out from the Waveney as a safer option to riverswimming. Its 1959 successor – an unheated pool separate from the river, free from fish, eels and without a pea-shingle floor! – was transformed into the heated 3 pool Lido in 2009. beccleslido.com

In the 1950s, Peter Rabbit would have had a field day when parts were used for growing carrots!
